ROADBRIDGE

INTRO

C'est à Lille, capitale des Flandres, que se trouve le centre de conception mondiale de la marque B'TWIN : le « B'TWIN Village ».

Et c'est au cœur de celui-ci que les concepteurs de la marque imaginent, conçoivent et testent la gamme de vélos Route. En effet, l'ensemble des collaborateurs, pratiquants et passionnés de vélo est au service des clients, afin de leur apporter encore et toujours plus de plaisir dans leur pratique.

Pour ce faire, la totalité de la gamme de vélos Route a été travaillée avec une seule et même obsession : l'accessibilité.

Le but étant de rendre accessible la pratique du vélo aux amateurs de cyclismes ; du cycliste débutant à celui en quête de performances (Gamme TRIBAN / ULTRA AF / ULTRA CF).

B'TWIN s'efforce également de rendre accessible des produits dont la qualité est irréprochable, dans un sport où chaque détail compte.

Enfin, l'accessibilité repose également sur la fiabilité des vélos, sur lesquels nous intégrons l'ingénierie et le design, pour partager avec chaque utilisateur la passion du Vélo.

Lille, capital of the Flanders, is the place where the B'TWIN village, the global design center of the brand, is located.

Inside our walls, our project teams dream, imagine, design and test our road bike range.

All our teammates are passionate about bikes, use them for sport and also transport, and work tirelessly to make biking simple and a pure pleasure.

To achieve this goal, our full range is proposed with a single obsession : accessibility.

Accessibility to all types of users ; from the beginner to the performer (range TRIBAN / ULTRA AF / ULTRA CF).

Accessibility comes with no compromise on quality in a sport where each detail counts, in order to share our passion with each user.
